

King County International Airport, also known as Boeing Field, is a pivotal airport and an extensively busy one. It is located just four miles south of downtown Seattle. This route plays a vital role in making King County a preferable port for the executive class, including political dignitaries and celebrities.

## About King County International Airport – Seattle, Washington (BFI)

The airport promotes plentiful businesses that successfully generate handsome profits each year. This great turnover results in potential job openings for several careers. King County offers commercial flights, cargo services, private or corporate jets, helicopters, and military aircraft on a smaller scale. Here, the administration successfully runs capital projects to better the economy.

If you're traveling to or from the Seattle area on a private plane, you'll have different options when it comes to airport choice. [Contact us today](#) to learn more about chartering a private flight to or from King County International Airport.
