

Van Nuys Airport (VNY) is located in San Fernando Valley. This airport is regarded as one of the world's most lively and bustling civil aviation airports. Though the air travels are noncommercial at Van Nuys Airport, it facilitates more than 200 aviation-oriented businesses on-premises. To travel to and from Van Nuys Airport, a private flight is required.

About Van Nuys Airport – Van Nuys, California (VNY)

Los Angeles World Airport owns and operates Van Nuys Airport. The airport is managed and administered by a board of commissioners appointed by the mayor of Los Angeles. They are also responsible for setting the airport policies. Van Nuys Airport renders aid to big-budget aviation projects, including aircraft repairs, interior maintenance, avionics, and specialized operations.
