

Booking a last-minute flight with a commercial airline can be difficult, especially if you need more flexibility with your travel plans. It can also be costly and, often, not worth the added expense.

Last-minute private jet deals can be a great way to save money if you have flexibility in your travel plans; in other scenarios, looking for a last-minute flight may be essential due to a sudden event, such as a family emergency.

At JetMembership, we can help you charter a last-minute private jet anytime. Depending on how flexible you are with your travel plans, last-minute charter flights can also save a substantial amount of money.

Last-Minute Private Jet Deals Can Help You Save Time & Money

Last-minute travel plans can arise for various reasons, such as an urgent situation, an impromptu vacation decision, or unexpected changes in original plans. While last-minute plans may not be ideal, they can help you save a lot of money on private flights.

Taking Advantage Of Empty-Leg Flights Near You

An empty-leg flight is a one-way, empty flight of an aircraft with no passengers. It is offered to travelers looking for last-minute deals. Check out the Luxury Aircraft Solutions page for [empty-leg flights now!](#)

There are two instances in which you can charter an empty-leg flight:

A flight from point A to point B has to return to point A without any passengers, at its own cost of fuel and other charges. This one-way trip is offered to passengers looking to charter a private jet. If it gets chartered, you will enjoy the same luxury, convenience, and privacy at a fraction of the cost you had to pay for exclusive charter jets because it needs to make that trip back to point A regardless.

A flight from point A to point B gets a new and urgent order to get to point C and pick passengers up. If the timing and route work for your schedule, you can likely secure a discounted deal for an empty-leg flight from point B to point C because the jet was headed that way with or without passengers on board.

Be Flexible With Your Travel Plans

Flexibility in your travel plans can make empty-leg flights and last-minute private jet deals easier to find. Jumping on an empty-leg flight for your travel plans, whether it involves the schedule, dates, airports, or aircraft, can make a private jet charter a financially feasible option.

Our empty-leg flight tool makes it easy for travelers to discover upcoming empty-leg flights. Alternatively, you can contact us directly for more information on last-minute private jet deals.

Check Alternate Airports For Charter Flights

When you charter a private jet, you can access almost every general aviation airport, including

municipal airports that commercial planes cannot fly to. These airports can be more convenient choices in general, and if you're flexible with the airports you fly to or from, you may be able to score a last-minute private jet deal.

Our team is ready to help you explore alternative, less well-known airport options than larger commercial airports. If saving money is a priority for your upcoming private jet charter and you're flexible with airport options, we can help you find a solution that works.

Travel With A Group For Last-Minute Charter Flights

Securing a last-minute private jet deal is easier if you are traveling with a group that you can split the cost with. Flying with friends and family is always fun, and boarding an exclusive plane that is just for you and your group without the crowd or the waiting time is entirely worth it. Larger jets can accommodate bigger groups, so even though it may be last minute, getting more people to split the cost can make a last-minute deal even cheaper.

Last-minute private jet deals are also a good option for business travelers who need to fly somewhere urgently, such as for an impromptu meeting or other important event. We can accommodate you and your colleagues by finding the best available private jet deal at the last minute, ensuring you reach your destination on time.
