

At JetMembership.com, we are a membership-based private jet company, meaning that you pay a flat fee to have access to our fleet of aircraft at wholesale prices. Members have access to a wide range of aircraft, from light jets and turboprops to jumbo jets. Enrolling in our Jet Membership program is the best way to take your private aviation experiences to the next level, and offers endless benefits compared to just chartering private flights through a charter broker.

There are plenty of reasons to consider a Jet Membership, especially if you frequently fly for business or pleasure. Here are just a few benefits that come with private jet membership:

Flexibility

One of the biggest advantages of private jet membership is the flexibility it provides. With a commercial airline, you're generally stuck with their schedule. But with a private jet, you can fly whenever you want, to wherever you want. Because plans can change at any time or you may want to fly somewhere last minute, having a Jet Membership can particularly come in handy if you quickly need to arrange a private flight.

Avoid the crowds

Commercial airlines are getting more and more crowded, which can make flying a less than pleasurable experience. With a private jet, you can avoid the crowds and enjoy a more relaxed travel experience.

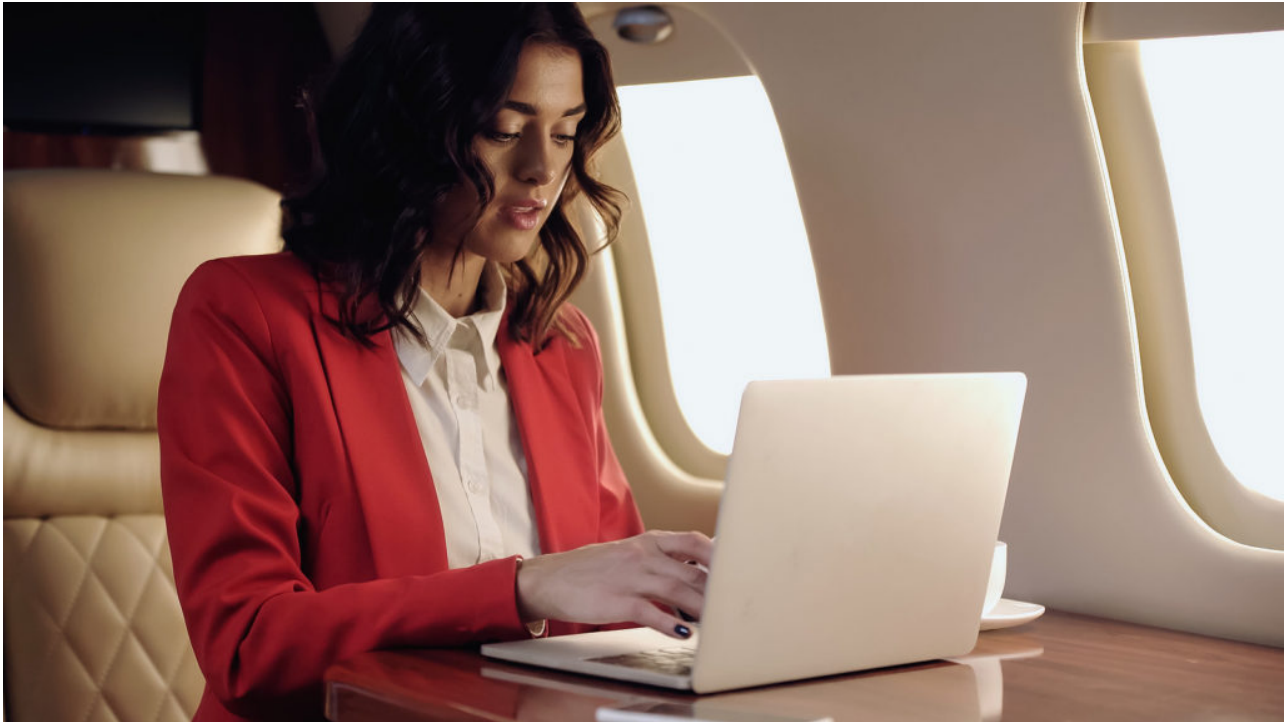

Get there faster

Private jets can get you to your destination faster than commercial airlines, thanks to their ability to fly directly to more airports. Additionally, people who fly private can choose to arrive at the airport for their flight at the last minute, rather than several hours prior to departure. This helps to save a

considerable amount of time overall.

Enjoy better service

When you fly on a private jet, you can enjoy a higher level of service than what's available on commercial flights. From gourmet food and drinks to attentive flight attendants, you'll be treated like royalty when you fly private.

Avoid the hassles of commercial travel

From long security lines to lost luggage, there are plenty of hassles that come with commercial travel. When you fly private, you can avoid all of those hassles and enjoy a much smoother travel experience.

Higher level of comfort and luxury

On a private jet, you'll be able to enjoy spacious seating, five-star service, and all the amenities that come with flying in style. You'll also have the peace of mind knowing that you're flying in a safe and comfortable environment.

It's a great way to impress clients or business associates

If you're looking to make a good impression, flying on a private jet is a great way to do it. Your clients or business associates will be impressed by your level of sophistication and style.
